in loans to our members!**

Do You Know Your Nomination?

Members don't realise how important it is to have a nomination on their account and to review their nomination when circumstances change in their life.

For those who don't know what a nomination is, it is like a Will, so in the event of your death, you nominate a person or persons to claim your shares/insurance on your account.

A nomination must be in writing. You can complete a nomination form in our office.

The statutory maximum amount that can pass under a nomination is currently €27,000. Any amount in excess of this balance will form part of your estate.

A nomination is automatically revoked by your subsequent marriage.

The nominated property does NOT form part of a deceased person's estate and there is no charge for making a nomination.

We ask all members to check if their current nominees are as they intend, and if not, please visit our office to update your nomination form.

Our staff are happy to answer any questions
you may have

Credit Union Fun Facts
